Rate of transposition of EU transport directives

The screenshot shows the 'EU Transport Scoreboard' page on the European Commission website. The page title is 'MOBILITY AND TRANSPORT'. The breadcrumb trail is 'European Commission > Transport > Facts & fundings > EU Transport Scoreboard > Compare'. The main navigation menu includes 'Home', 'Transport modes', 'Transport themes', 'Media corner', 'Facts & fundings', and 'About us'. The page content is titled 'EU Transport Scoreboard' and 'EU Member State performance for selected indicator(s)'. It explains that top performers are marked in green and least well performing countries in red. A table shows the transposition rate for 'Transposition of EU law' for each member state. A purple arrow points to the 'BG' (Bulgaria) entry, which is marked as a high performer with a 100% transposition rate. A legend indicates that green boxes represent high performers, red boxes represent low performers, and blue boxes represent the EU average. A 'BACK TO START' button is visible on the right side of the page.
