1. INTRODUCTION

STATUS

Analysing different sources like WB and International Custom organization show that not much has been done in developing border crossing guide for TRACECA corridor basis except IRU efforts.

THE GOAL

The goal is to create a TRACECA Border Crossing Guide “BCG”, which can start from simple data and grow into a full size booklet / tool containing a set of information and forms assisting in prepared border crossing along TRACECA corridor.

COMPONENTS

TRACECA BORDER CROSSING GUIDE may consist of 3 main parts

- 1) ***TRACECA BORDER CROSSING POINTS CATALOG (inventory)*** – the list of BCP country-by- country with most general information
 - a. name, type of BCP,
 - b. mode of transport allowed at this BCP,
 - c. type of controls apply at this BCP,
 - d. working hours
 - e. Etc.
- 2) ***TRACECA BORDER CROSSING GUIDE*** –the information, instructions and types of required docs country-by- country. This document will be divide it on two components

CHAPTER A: Border Crossing Requirements

- a. General Requirements on Country’s Exit, Entrance and Transit for all transport modes
- b. Regulations on export /import / transit regimes for all transport modes
- c. Most common Requirements of control types like immigration, customs, phytosanitary, health, etc.

CHAPTER B: Border Crossing Set-of-Docs

This chapter will consist of the copies of document and forms required under the different types of control and indicated at the Chapter A.

- 3) ***TRACECA BORDER CROSSING TECHNICALITIES - specifications of the*** Border crossing procedures ***at the BCP country-by-country, scheme of BCP, any specific requirements, etc.*** This may include as disaggregated details depending on the border crossing and degree of disclosing of this information.

This document is an initial drafted for the guide and subject to further improvements

It is advisable to focus on issuing the BCP CATALOG, and to first release it. On parallel track, works can be progressing on the BC Guidelines. This document is a living document and needs to be reviewed continuously.

2. FILLING-IN INSTRUCTIONS

1. TRACECA BORDER CROSSING POINTS CATALOG

Filling in forms for TRACECA border crossing points catalog does not require much effort and descriptive information. The table presented below is unified for all TRACECA member countries. To fill in this table it's necessary to put "+" in the corresponding graph of the table. If there is a need to add any other information, please specified it after the completed table. We understand that the approach to classification and systematization of the BCP may vary from country to country, therefore the table contains only most common characteristics.

UNIFIED TABLE: BCP CATALOG.

№	ID	Name of BCP	Name of Interfacing BCP	Working Hours	Type of BCP			Mode of BCP							Types of Control											
					International	State-to-state	Local	Rail		Road		Sea		River		Pedestrian	Border Guards	Passport	Customs	Sanitary	Veterinary	Phytosanitary	Quarantine	Ecology	Traffic Police / service	Other
								Passengers	Cargo	Passengers	Cargo	Passengers	Cargo	Passengers	Cargo											
n																										

Where,

№ - serial number of the BCP at the border section (between two countries)

ID – international identification code of the BCP

Name of BCP – name of the BCP

Name of Interfacing BCP – name of BCP from side of neighbouring country

Working Hours– open time/schedule of the BCP, if the BCP operate round-the-clock please indicate as “24 h”, if not – indicate time framework.

International Type of BCP – individuals and means of transport from any counties are allowed at the BCP

State-to-state Type of BCP - individuals and means of transport from country of origin and neighbouring country are allowed at the BCP

Local Type of BCP – individuals and means of transport of individuals from trans-border area are allowed at the BCP

Mode of BCP – is a mode of transport allowed at the BCP (rail, road, sea, river (ports) or several modes at the same BCP), and type of transportation (passenger, cargo or both)

Types of Control – here is listed compulsory type of controls at the border. If the system of “one stop” or “single window” or other is operated at the BCP (or country) please note this below the completed table. The details of operation of these systems shall be explained as well (desirable to specify the basic principles of this system in a national context and to provide its characteristics).

The example of completed table for the border section is attached (**ANNEX 1**).

The draft of the content of the TRACECA border crossing catalog is putt in **ANNEX 2**.

In the list of border section there are a sea/river segments (Black sea, Caspian sea, Danube river) – for this case, please provide the characteristics of the BCP at the sea / river ports.

2. TRACECA BORDER CROSSING GUIDE. BORDER CROSSING REQUIREMENTS.

As noted above, this part of TRACECA border-crossing guide consists of the information of country level, enlarge on all BCP and all type of formalities and type of control at the border crossed by individuals, any mode of transport and carriage of goods. .

The unified tables for country exit/entrance/transit are needed to be completed (see below).

If any of the Control Services in your country does not provide a functions stipulated in a table please note this in correspond graph (Example: Passport control is not require the documents on transport vehicle).

We ask you to provide the most complete information and copies documents, forms required of different control services s for crossing the border, or links to download them.

The draft of content of the part 1 «Border Crossing Requirements» of the TRACECA BORDER CROSSING GUIDE is attached (**Annex 3**).

UNIFIED TABLE: EXIT FROM THE COUNTRY

Country:

TRACECA GUIDE FOR BORDER CROSSING

Goods exported without TIR or ATA carnet

The following methods may be performed:

For goods leaving the customs territory of the Union, pre-departure declarations must be lodged electronically.

The pre-departure declaration can be lodged by a submission of the required data set in one of the following forms:

- export declaration to be sent to the national export customs declaration system of the Member State (MS) concerned ,
- transit declaration, to be sent to the national transit system of the MS concerned,
- re-export declaration , or
- exit summary declaration to be sent to the national system of the MS concerned .

An exit summary declaration (EXS) shall be lodged where an export or re-export declaration has not been lodged or is not required.

The pre-departure declaration must always contain the particulars necessary for risk analysis for security and safety purposes.

The export procedure applies to Union goods which are taken out of the customs territory of the Union to a destination outside such territory.

Formalities concerning the export customs declaration but not a normal export procedure shall be used for:

- outward processing (Article 269(2)(a) and (3) UCC);
- end use (Article 269(2)(b) and (3) UCC)
- aircraft supplies subject to the conditions under Article 269 (2) (c) UCC;
- ship supplies.

Where goods are released for export by one customs office and leave the customs territory of the Union through another customs office it is required that the relevant information is exchanged electronically between these customs offices using the Export Control System (ECS)

Re-export

Re-export is not a customs procedure. Re-exportation may take place after non-Union goods have been under customs warehousing, inward processing, temporary admission, in a free zone or temporary storage.

In case of a re-export goods may leave the customs territory of the Union covered by:

- a re-export declaration;
- an EXS as provided under Article 271 UCC, or
- a re-export notification as provided under Article 274 UCC.

Master Reference Number (MRN)

The MRN is a unique number in the EU that is automatically allocated by the customs office that receives/validates and accepts an electronic customs declaration, a re-export declaration, exit summary declaration (EXS) or a re-export notification.

Time limits for lodging a pre-departure declaration (Article 244 UCC DA)

EU legislation requires that where a pre-departure declaration is transmitted in the form of an export (re-export/outward processing) declaration, that declaration must be lodged before departure. In the case of road traffic, at the latest one hour before the goods are to leave the customs territory of the Union.

Obligation to lodge an EXS

EU legislation requires, as a general principle, that all goods brought out of the customs territory of the Union, regardless of their final destination, shall be risk assessed and subject to customs control before departure or – in the case of deep sea containerized maritime shipments – before commencement of vessel loading.

TRACECA GUIDE FOR BORDER CROSSING

Consequently, where a customs declaration or a re-export declaration is not required, an exit summary declaration has to be lodged.

Presentation of the goods at customs office of exit (Border crossing point)

The goods and the MRN or Export Accompanying Document (EAD) shall be presented at the customs office of exit.

❖ *if the authorisation/certificate/licence*

The control of exports of goods by rail

The following methods may be performed:

For goods leaving the customs territory of the Union, pre-departure declarations must be lodged electronically.

The pre-departure declaration can be lodged by a submission of the required data

set in one of the following forms:

- export declaration to be sent to the national export customs declaration system of the Member State (MS) concerned ,
- transit declaration, to be sent to the national transit system of the MS concerned,
- re-export declaration , or
- exit summary declaration to be sent to the national system of the MS concerned .

An exit summary declaration (EXS) shall be lodged where an export or re-export declaration has not been lodged or is not required.

The pre-departure declaration must always contain the particulars necessary for risk analysis for security and safety purposes.

The export procedure applies to Union goods which are taken out of the customs territory of the Union to a destination outside such territory.

Formalities concerning the export customs declaration but not a normal export procedure shall be used for:

- outward processing (Article 269(2)(a) and (3) UCC);
- end use (Article 269(2)(b) and (3) UCC)
- aircraft supplies subject to the conditions under Article 269 (2) (c) UCC;
- ship supplies.

Where goods are released for export by one customs office and leave the customs territory of the Union through another customs office it is required that the relevant information is exchanged electronically between these customs offices using the Export Control System (ECS)

Re-export

Re-export is not a customs procedure. Re-exportation may take place after non-Union goods have been under customs warehousing, inward processing, temporary admission, in a free zone or temporary storage.

In case of a re-export goods may leave the customs territory of the Union covered by:

- a re-export declaration;
- an EXS as provided under Article 271 UCC, or
- a re-export notification as provided under Article 274 UCC.

Master Reference Number (MRN)

The MRN is a unique number in the EU that is automatically allocated by the customs office that receives/validates and accepts an electronic customs declaration, a re-export declaration, exit summary declaration (EXS) or a re-export notification.

Time limits for lodging a pre-departure declaration (Article 244 UCC DA)

EU legislation requires that where a pre-departure declaration is transmitted in the form of an export (re-export/outward processing) declaration, that declaration must be lodged before departure. In the case of road traffic, at the latest one hour before the goods are to leave the customs territory of the Union.

Obligation to lodge an EXS

EU legislation requires, as a general principle, that all goods brought out of the customs territory of the Union, regardless of their final destination, shall be risk assessed and subject to customs control before departure or – in the case of deep sea containerized maritime shipments – before commencement of vessel loading. Consequently, where a customs declaration or a re-export declaration is not required, an exit summary declaration has to be lodged.

imported by natural persons,

In the case of individuals resident in the following documents are required:
No customs formalities are required for certain goods which can be declared orally or by any other act.

In normal circumstances a Customs declaration for goods in baggage is not required. However, a declaration is required in some cases as follows: goods of a commercial nature, in excess of either €1,000 in value or a net mass of 1,000kgs

1. Customs declarations for release for free circulation may be lodged orally for the following goods:(a) goods of a non-commercial nature; (b) goods of a commercial nature contained in the travellers' personal baggage provided that they do not exceed either EUR 1 000 in value or 1 000 kg in net mass; (c) products obtained by Union farmers on properties located in a third country and products of fishing, fish-farming and hunting activities, which benefit from duty relief under Articles 35 to 38 of Regulation (EC) No 1186/2009;(d) seeds, fertilisers and products for the treatment of soil and crops imported by agricultural producers in third countries for use in properties adjoining those countries, which benefit from duty relief under Articles 39 and 40 of Regulation (EC) No 1186/2009.

2. Customs declarations for release for free circulation may be lodged orally for the goods referred to in Article 136(1) of DA provided that the goods benefit from relief from import duty as returned goods.

In addition to goods of a non-commercial nature, an oral declaration may be made for goods of a commercial nature contained in a travellers personal baggage provided the total value per consignment and per declarant does not exceed either €1,000 in value or 1,000kg net mass.

Travellers' accompanied baggage, including personal, household and professional effects imported from outside the European Union, does not require a Customs declaration.

Waiver of the declaration is also allowed for certain importations of merchandise in baggage Such goods are

Type of Control covers	documentary, physical and laboratory control of the goods is exercised by the controlling bodies officials (according to the Decision of the Customs Union Committee as of 18 June 2010 № 317).
Required Documents	Veterinary certificate, veterinary permits for transit, the exporter should observe the requirements of veterinary legislation of the country-importer and a transit country.
4. Phyto-sanitary Control	
Responsible Authority	Committee of State Inspection in the agro-industrial complex of the Ministry of Agriculture of the Republic of Kazakhstan
Duration	Up to 10 minutes (<i>in case of detection of the violation of the control duration – in accordance with the National Legislation in the field of plants quarantine</i>)
Subject of Control	Vehicles. Supporting documents.
Type of Control covers	Check of documents. Outer inspection of a vehicle (checking the absence of quarantine objects, included in a single list of (KO) Eurasian Economic Union (EAЭC) and the spillage of grain, seeds and processed products).
Required Documents	Phyto-sanitary certificate, letter-agreement on import of quarantine objects on scientific purpose, shipping documents.

Additional information: The vehicles moving to the state territory of one Party through the state territory of another Party are subject to transport (motor) control border crossing points (BCP) situated on the outer boundary of the Customs Union in compliance with the state legislation of the Party allowing the given vehicles to pass via its territory and pursuant to Articles 4–6 of the present Agreement.

Check-up of vehicles, documents required for the purposes of transport (motor) control and official registration of its results shall be performed in compliance with the legislation of the Party to be crossed by these vehicles on the outer boundary of the Customs Union and pursuant to the present Agreement.

Transport (motor) control authorities mutually recognize the documents drawn up by the results of transport (motor) control.

Transport (motor) control authority of the Party allowing vehicles to cross its state border and to enter the single customs territory of the Customs Union (hereinafter – territory of the Customs Union), at border crossing points besides transport control envisaged by the legislation of the given state performs:

1) 1) verification of compliance of the requirements for weight and sizes of motor vehicles with the standards similar to those established by the legislation of the other Parties, through the territories of which the transit is performed, as well as – to the

data indicated in special permits for carriage of wide load and/or heavy-weight cargo, or for the passage of wide load and(or) heavy-weight motor vehicles through the territories of other Parties' states;

2) verification of the availability of carriers' permits for transit across the territories of other Parties' states, through which the transit is performed, their compliance with the type of operation and compliance parameters of motor vehicles with the requirements envisaged by such permits;

3) verification of the availability of carriers' special permits for carriage of wide load and/or heavy-weight cargo, for transit of wide load and/or heavy-weight motor vehicles, as well as special permits for carriage of perishable goods across the territories of other Parties' states through which the carriage or the transit is performed;

4) verification of the availability of carriers permits (special permits) for carriage to the third countries (from the third countries) to the territories of other Parties' states through which the carriage is performed;

5) issuance of a registration coupon to the carrier according to the form approved by transport (motor) control authorities in the event that according to the legislation of other Parties' states the carriage is allowed without permits for transit through the territories of other Parties' states, and in the event that the carriage is performed pursuant to the multilateral permit.

When a motor vehicle exits through the outer boundary of the Customs Union transport (motor) control authorities shall in addition to the actions given in Article 4 of the present Agreement carry out the verification at border crossing points:

1) the carrier shall have the coupon for payment of charges for a vehicle transit along the roads of the Parties' states, through the territories of which the transit was accomplished, in the event that the payment of such charges is necessary in accordance with the legislation of the Parties' states;

2) the carrier (driver) shall have the coupon, acknowledging the payment of a fine for violation of the order of performance of international road operations in the territory of the Party's state or the court decision on satisfaction of a complaint about imposition of the corresponding official reprimand on the carrier (driver) in the event that the permit for transit through the territory of a state of one of the Parties or the registration coupon has a note of the transport (motor) control authorities about the imposition of such fine upon the carrier (driver);

3) operators of vehicles of the Parties' states shall have an admission to perform international road traffic;

4) operators of vehicles shall have necessary documents in the event of receipt of a notification indicated in article 6 of the present Agreement from the transport (motor) control authority of another Party.

When establishing in the course of control envisaged in Article 4 of the present Agreement of non-conformity of the vehicle's checked-up parameters, lack or non-conformity of the documents provided by the legislation of the Parties' states, the transport (motor) control authority of one Party issues to the driver the notification according to the form approved by the transport (motor) control authorities of the Parties which contains the information on:

- the established non-conformities;
- the necessity to receive the missing documents before the entry to the territory of another Party's state;
- the nearest border crossing in view of the vehicle passage route within the transport (motor) control authority of another Party, whereat the carrier shall produce evidence of removal of non-conformity of the vehicle's monitored parameters and (or) the documents given in the notification.

The information on the issuance of the notification shall be sent to the transport (motor) control authority of another Party and put into the database of the transport (motor) control authority, which revealed non-conformity.

In the event of issuance of the notification to the carrier by the transport (motor) control authority of one Party in accordance with the present Article, the transport (motor) control authority of another Party at border crossing point is entitled to verify the execution of this notification and if there are certain grounds - to apply measures with regard to the carrier (driver) in accordance with the legislation of the state of another Party.

Exit of a vehicle from the territory of the Customs Union shall not be performed before showing by the carrier of the documents envisaged by Articles 4 and 5 of the present Agreement.

The transport (motor) control authority of one Party shall inform the transport (motor) control authority of another Party on finding of the non-conformity of the monitored parameters of the vehicle, lack or non-conformity of the documents envisaged by the legislation of the Parties' states, when a vehicle going from the territory of another Party state exits through the external boundary of the Customs Union.

TIR procedures in the Turkish Customs Territory are carried out according to the provisions of the Convention, General Communiqué on Customs (TIR Procedures) (Series No: 1), Circular No:2017/6, the Article 84 of the Turkish Customs Law No:4458, and the Article 216 of the Customs Regulation.</p> <p>Provided that the provisions of the TIR Convention and the above mentioned Communiqué are observed, the following exemptions shall be granted for the goods carried under cover of TIR carnets:</p> <p style="padding-left: 40px;">(a) Goods carried under the TIR Procedure shall not be subject to the payment or deposit of import or export duties and taxes at the customs offices.</p>	

TRACECA GUIDE FOR BORDER CROSSING

	<p>(b) Goods shall not be inspected by customs offices, with the exception of the cases stipulated in the Articles 26(2), 27, 39(3) and 40 of the Communiqué.</p> <p>As national guaranteeing association, the Union of Chambers and Commodity Exchanges of Turkey (TOBB) provides a financial guarantee for the payment of the customs duties and taxes that may occur in the Turkish Customs Territory.</p> <p>The maximum amount of a guarantee cover in Turkey is equal to 100.000 EUR per TIR Carnet as of the 1st of July 2017.</p> <p>In case the grand total of customs duties for the goods carried is not above the maximum guarantee figure established as per TIR Convention, escorting official assignment shall not be made.</p> <p>Provided that the grand total of customs duties for the goods transported exceeds the maximum guarantee amount established as per TIR Carnet, in cases of reports, intelligence, strong suspicion of smuggling, or in cases where customs offices have risk data on both the goods and the transporter;</p> <p style="padding-left: 40px;">a) Vehicle tracking system (ATS) shall be employed as the first solution. In case there is an ATS device, escorting official assignment shall not be made.</p> <p style="padding-left: 40px;">b) In case the relevant customs enforcement office does not have an ATS device, provided that a decision with justification is taken by the committee of at least three, convened under the chairmanship of the deputy director, noting the lack of an ATS device, an escorting official may be assigned.</p> <p style="text-align: center;">❖ <i>if required permit/certificate/license</i></p>
<p>Goods, Exported Temporarily under Cover of an ATA Carnet</p>	<p>Paper based ATA Carnet and all accompanying documents</p> <p>ATA Carnets are international customs documents that simplify customs procedures for the temporary importation and temporary exportation of various types of goods. They facilitate international business by avoiding extensive customs procedures, eliminating payment of duties and value-added taxes. Every person or organisation who want to use an ATA Carnet, with a petition which determine; The characteristic, brand, number, weight, piece, price must apply one of the authorized chamber. If they deposit to the chamber, an ATA Carnet will be given.</p>
<p>Goods, Exported without a TIR or ATA Carnet</p>	<p>The Common Transit Procedure (CTP) is used for the movement of goods between the 28 EU Member States, the EFTA countries (Iceland, Norway, Liechtenstein and Switzerland), Turkey, Republic of Macedonia and Serbia.</p> <p>National Transit Procedure is a transit procedure which allows movement of goods from a departure customs authority to an arrival customs authority both of which located within the Customs Territory of Turkey.</p> <p>The goods to be exported from the Customs Territory of Turkey can be moved with transit declaration in Common Transit Procedure with T1 regime code or National Transit Procedure with TR regime code.</p> <p>Certain goods can be exported depending on the preliminary permission of a specific authority. For example, export of military items is subject to the permission of Ministry of Defense; export of dual-use items is subject to the permission of Ministry of Economy and export of nuclear and nuclear dual-use items is subject to the permission of Turkish Atomic Energy Institution. A national communique numbered Export:96/31 shows the goods which are prohibited or subject to permission to be exported.</p> <p style="text-align: center;">❖ <i>if required permit/certificate/license</i></p>
<p>Control for the Exportation of Goods by rail transport</p>	
	<p>When the goods to be exported from the Customs Territory of Turkey, CIM can be used for both National (According to Turkish Customs Code) and International (According to Common Transit Convention) Transports by rail under the transit procedure. When CIM is used for simplified procedure, no transit declaration is needed. When there is no simplification, goods can be moved with transit declaration. This simplification is subject to an authorisation.</p> <p style="text-align: center;"><i>if required permit/certificate/license</i></p>
<p>Control for the Exportation of Goods by sea transport</p>	

TRACECA GUIDE FOR BORDER CROSSING

	<p>The goods to be exported from the Customs Territory of Turkey and the relevant customs declaration shall be lodged electronically via BILGE System which is a software for automated customs procedure. A customs declaration may be submitted by any person having the authorization to present the goods concerned and to produce the documents required for the implementation of the provisions governing the customs procedure for which the goods are placed, or who is able to provide this submission to the competent customs administrations. The case in which and the conditions under which the goods leaving the customs territory of Turkey are not subject to a customs declaration shall be determined in accordance with the regulation.</p> <p>Where lodging a customs declaration is not required a summary declaration is lodged at the customs administration of exit.</p> <p>The summary declaration shall be lodged by:</p> <p>(a) the person who brings the goods, or who assumes responsibility for the carriage of the goods, out of the customs territory of Turkey; or</p> <p>(b) any person who is able to present the goods in question or to have them presented to the competent customs authority; or</p> <p>(c) a representative of one of the persons referred to in the points above.</p> <p>In the case of exportation, invoice is the only document which is required to be submitted in addition to the customs declaration in any case.</p> <p><i>if required permit/certificate/license</i></p>

Country: Ukraine

Ukraine, to point 2

The State Federal Service (SFS) Customs officials are located at international and interstate border crossing points through the state border of Ukraine. At the local border crossing points the staff of the SFS Customs exercise boundary control, the officials of the SFS customs are not quartered at the given BCPs as the goods subject to declaration are not transported through the local BCP's. If a citizen crossing the state border of Ukraine with the goods subject to declaration he is directed to the nearest international or interstate border crossing point where the SFS officials exercise necessary customs clearance.

According to article 319 of the Customs Code of Ukraine the goods transported through the customs border of Ukraine may besides customs control be subject to state sanitary-epidemiology, veterinary-sanitary, phytosanitary, ecological radiological control, as well as state control of the legislation observance regarding food, forage, animal by-products, health and animals well-being. The given types of control at the BCPs through the state border of Ukraine (except radiological and state control of the legislation observance regarding foodstuffs, forage, animal by-products, health and animals well-being) are performed by the SFS customs in the form of an advance documentary control on the basis of the information received from the state bodies authorized to exercise these types of control based on information technologies.

In case of detection of damage in the package or natural signs of the goods depreciation, or termination of their expiry dates, or absence of at least one of the documents or registers necessary for advance documentary control or the lack of correspondence of the transportation conditions with the established requirements, or the information of the state authority on the ban on transportation of these goods through the state border of Ukraine the SFS customs make a decision on termination of the advance documentary control and the involvement of the officials of the relevant state authorities to perform the types of goods control given above that arrive to the BCP through the

state border of Ukraine. If it is not possible the vehicles are sent to the BCP where the officials of the relevant controlling body may arrive.

The order of the advance documentary control at the BCPs through the state border of Ukraine is established by the Resolution of the Cabinet of Ministers of Ukraine as of 05.10.2011 № 1030.

The admission of the goods exported outside the customs territory of Ukraine is performed based on positive results of the state types of control at the customs points of departure. The licensing documents issued by the controlling bodies for accompanying the goods and vehicles carrying these goods shall not be shown to the customs authorities at the BCP through the state border of Ukraine. The officials of the controlling bodies are not involved in the control procedure and not invited to the BCP.

“Single Window” Concept

In compliance with the Resolution of the Cabinet of Ministers of Ukraine as of 25 May 2016 № 364 “Some issues of the implementation of the concept of the “Single Window” in exercising customs, sanitary-epidemiology, veterinary-sanitary, phyto-sanitary, ecological, radiological and other types of state control” the information exchange between the enterprises, controlling bodies and customs according to the “Single Window” concept is applied in customs declaration for goods subject besides customs control to other types of state control (veterinary-sanitary, sanitary-epidemiologic, phyto-sanitary, ecological and radiological).

According to this concept the given types of control are performed in a contactless form through distribution by enterprises of the documents required for exercise of the given types of control in the information system of the State Fiscal Service of Ukraine. Through the information system of the State Fiscal Service of Ukraine the controlling bodies have access to these documents, examine them and on the outcomes of their examination make a decision in the scheduled date on the termination of control or another decision. The corresponding information becomes available through the given information system to both the enterprises and customs. The controlling bodies do not stamp the shipping documentation.

Control of the movement of road transport across the territory of Ukraine

According to article 6 of the law of Ukraine “On Road Transport” as of 05.04.2001 № 2344-III at international and interstate BCPs for road communication through the state border of Ukraine the State Federal Service customs in the field of international road traffic exercise:

- control of permit documents for traffic;
- control of size and weight of vehicles;
- control of observance of the rules of transportation of dangerous goods by carriers;
- control of payments by carriers – non-residents for passage along roads of Ukraine;

TRACECA GUIDE FOR BORDER CROSSING

control of payments of fines by carriers or fulfilment of orders given by the controlling bodies;

registration of road vehicles performing international carriage of passengers and goods across the territory of Ukraine.

UNIFIED TABLE: EXIT FROM THE COUNTRY

COUNTRY: UKRAINE

1. Passport Control		
Responsible Authority	<i>State Border Services of Ukraine</i>	
Duration	<i>Procedures should not take more time than the time of stop of foreign vehicles</i>	
Required documents for individuals	From country citizens: Passport of a citizen of Ukraine; Foreign passport for a citizen of Ukraine (including biometric data) ; Diplomatic passport; Service passport; Seaman's book	From foreign citizens: Actual passport document (issued by an authorized state body of a foreign state or the UNO statutory organizations confirming the nationality, not overdue, proving somebody's identity, giving the right to exit, acknowledged by the Ukrainian state)
Documents required for means of transport	For road transport Within the framework of control of the second line with the view of identifying the stolen vehicles or illegally acquired ones at BCPs the border guards check: the authenticity of technical passports for a vehicle, compliance of the indicated data with the data on a vehicle (number signs of a car assembly and unit); authenticity of the power of attorney for driving a vehicle (if there is such); checking of an insurance certificate "green card"; in case of necessity other documents may be checked (waybills, shipping documentation, etc.).	For rail transport Transfer slip
2. Customs control		
Responsible authority	State Fiscal Service of Ukraine (http://sfs.gov.ua), SFS customs	
Duration	Hour standards of control operations by the officials exercising control of persons, goods and vehicles at BCPs through the state border of Ukraine are approved by the Order of the State Customs Authority of Ukraine, Administration of the State Border Service of Ukraine, Ministry of Transport and Communication of Ukraine, Ministry of Public Health of Ukraine, Ministry of Agrarian Policy of Ukraine, Ministry of Environmental Protection of Ukraine, Ministry of Culture and Tourism of Ukraine, State Service of Ukraine for Aviation Safety Protection as of 28.11.2005 № 1167/886/824/643/655/424/858/900. At BCPs for road communication through the state border of Ukraine the hour standards for customs control are :

Control for the transit of Goods by road transport		
<p>Transit of Goods under a TIR carnet</p>	<p>Ukraine is a contracting party to the TIR Convention, 1975. The Association of International Road Forwarders of Ukraine guarantees payment of all customs duties and taxes subject to payment in case of detection of any breach of the TIR operation in the territory of Ukraine.</p> <p>The maximum amount of a guarantee cover in Ukraine from 1 July 2016 makes 100 000 EUR per one TIR Carnet.</p> <p>In case of excess of the given amount of guarantee cover, an additional guarantee Voucher TIR+ may be used.</p> <p>The maximum amount of a guarantee cover in Ukraine from 1 July 2016 makes 100 000 EUR per one voucher used together with the TIR Carnet.</p> <p>Thus the maximum total amount of guarantee cover of transit movement of goods under TIR conditions makes 200 000 EUR.</p> <p>The order of observance of the provisions of the Customs Convention on International Carriage of Goods under TIR Carnet (TIR Convention) of 1975 and the Instruction on filling in the TIR Carnet was approved by the Order of the Ministry of Finance of Ukraine as of 20.11.2017 № 953, registered in the Ministry of Justice of Ukraine 12.12.2017 № 1496/31364.</p> <p>The transportation of alcoholic drinks and tobacco products across the territory of Ukraine is not subject to guaranteeing procedure under cover of TIR Carnet.</p> <p>In accordance with article 94 of the Customs Code of Ukraine a TIR Carnet is used instead of a customs declaration for declaring goods, except excisable ones, into the customs transit treatment.</p>	
<p>Goods, Transited Temporarily under Cover of an ATA Carnet</p>	<p>I. Documents submitted together with an ATA Carnet</p> <p>1. Documents envisaged in article 94 and article 335 of the Customs Code of Ukraine.</p> <p>According to article 94 of the Customs Code of Ukraine irrespective of the mode of transport an ATA Carnet may be used for declaring into the customs transit treatment of transit goods, commercial vehicles in case that an ATA Carnet has blue pages.</p> <p>If an ATA Carnet is filled in the language other than Ukrainian, Russian or English, the revenues and fees body (customs) may demand the translation of such book into the Ukrainian language. The authenticity of translation shall be certified by a person who made a translation.</p> <p>The period of transit movement of goods through the territory of Ukraine is established according to article 95 of the Customs Code of Ukraine subject to a mode of transport carrying goods.</p> <p>The period of transit cannot exceed the period of validity of an ATA Carnet.</p> <p>Customs clearance under ATA Carnet of the goods moved through the customs border of Ukraine by non-residents is performed by a customs authority located at BCP through the customs border.</p> <p>The order of customs clearance of the goods transported through the customs border of Ukraine under ATA Carnets was approved by the order of the Ministry of Finance of Ukraine as of 31.05.2012 № 657.</p>	
<p>Goods transited without a TIR or ATA Carnet</p>	<p>In accordance with article 94 of the Customs Code of Ukraine for transiting goods through the territory of Ukraine a customs declaration is processed at the customs of entrance to the territory of Ukraine.</p> <p>According to article 335 of the Customs Code of Ukraine besides a customs declaration the following documents in paper or electronic form are submitted to</p>	

TRACECA GUIDE FOR BORDER CROSSING

	<p>the customs clearance office located at the BCP :</p> <p>a) documents for a vehicle, particularly those containing the information on its state registration (national identity);</p> <p>б) shipping documents (international way-bills);</p> <p>в) document accompanying international postings (if available) and established by the Universal Postal Union;</p> <p>г) commercial documents for the transported goods containing the information on the name and address of the carrier, name of the country of consignment and of the country of destination, names and addresses of a consignor (or seller) and a consignee of goods;</p> <p>At the BCP the SFS customs staff exercises customs control in accordance with the Type technological scheme of customs control of road vehicles, carriers and goods transported by them approved by the Resolution of the Cabinet of Ministers of Ukraine as of 21.05.2012 №451.</p> <p>Upon finalizing customs control at the BCP the Customs shall establish the period of goods delivery to the Customs of destination. According to article 95 of the Customs Code of Ukraine the period of goods delivery by road transport makes 10 days (in case of transporting goods within the service area of one customs – 5 days).</p>
Control for the transit of Goods by rail transport	
	<p>In accordance with article 94 of the Customs Code of Ukraine for transportation of excisable goods in transit through the territory of Ukraine a customs declaration is used to be executed at the customs of entry to the territory of Ukraine. For transportation of excisable goods in transit through the territory of Ukraine by rail transport an international SMGS railway consignment note may be used.</p> <p>According to article 335 of the Customs Code of Ukraine for movement of goods by railway transport in transit through the territory of Ukraine to the customs clearance office located at the BCP through the state border of Ukraine there are submitted besides a customs declaration (in transporting excisable goods) the following documents and information in paper or electronic form:</p> <p>a) SMGS railway consignment note;</p> <p>б) shipping documents;</p> <p>в) transfer slip for the railway rolling stock;</p> <p>г) document certifying the availability of supplies (if available)</p> <p>д) document accompanying international postings (if available) and established by the Universal Postal Union;</p> <p>е) commercial documents for the transported goods (if available at the carrier).</p> <p>At the BCP the SFS customs staff exercises customs control in accordance with the Type technological scheme of customs control of railway transport, carriers and goods transported by them approved by the Resolution of the Cabinet of Ministers of Ukraine as of 21.05.2012 №451.</p> <p>Upon finalizing customs control at the BCP at the entrance to the territory of Ukraine a railway wagon loaded with goods is forwarded to the Customs of destination (BCP at the exit from the territory of Ukraine). According to article 95 of the Customs Code of Ukraine the maximum period of goods delivery by railway transport makes 28 days.</p>
Control for the transit of Goods by sea transport	
	<p>In accordance with the Customs Code of Ukraine transit is a customs regime determining movement of goods and/or commercial vehicles subject to customs control between two SFS customs or within the area of one SFS customs without use of these goods, without paying customs fees and without non-tariff regulation of foreign economic activity.</p> <p>The movement of goods under customs transit regime is performed by a checkpoint or bonded transit, or cabotage.</p> <p>Cabotage – is the transport of Ukrainian and foreign goods by their loading to a sea (river) ship at one BCP on the customs territory of Ukraine and shipment to another BCP on the territory of Ukraine, to be unloaded there. The goods imported to the customs territory of Ukraine by sea (river) ship, are admitted for cabotage transportation between SFS customs or within the area of one SFS customs upon their transshipment to another sea (river) ship, running under the flag of Ukraine or subject to the permit of central executive authorities</p>

TRACECA GUIDE FOR BORDER CROSSING

	<p>providing for state policy building and its realization for a foreign ship in the field of transport.</p> <p>Foreign goods are subject to customs control during the period of cabotage.</p> <p>The period of transit traffic for sea and river transport makes 20 days.</p> <p>Customs procedures regarding cabotage vessels and goods transported by them are exercised in accordance with articles 97 - 100 of the Customs Code of Ukraine and the Order of customs procedures in sea and river transport approved by the Order of the Ministry of Finance of Ukraine as of 10.03.2015 № 308.</p> <p>The goods under customs control are transported by cabotage vessels between the ports of Ukraine in the transit regime and controlled by customs in accordance with the legislation by executing customs declaration. In case of transit at one BCP or for declaration of non-excisable goods a Bill of Lading may be used instead of a customs declaration according to article 94 of the Customs Code of Ukraine.</p>
3. Phyto-sanitary Control
