

INSTRUCTION
for issuing of Special Transport Permit
for exceeding the total permissible weight and dimensions

The vehicles exceeding the total permissible laden weight, the permissible maximum weight on axles and/or the permissible maximum dimensions that are in public road traffic of the Republic of Moldova are regulated by the Government's Decree no. 1073 of 01.10.2017.

The vehicles that carry indivisible goods or which, without load, exceed by construction the weight and/or dimensions limits, may carry goods on the basis of a Special Transport Permit (STP), issued according to the provisions of Government's Decree of the Republic of Moldova no. 1073 of 01.10.2007 regarding the approval of Regulations on the authorization, control and carrying on public roads with weights and/or dimensions exceeding the established limits.

The procedure for issuing of STP:

1. The applicant has to submit an application in order to get a AST, its model is displayed on National Agency of Road Transport (ANTA) website: www.anta.gov.md, section *Autorizații/Autorizației Speciale de Transport (AST)*.
